TO SAVE THE FORESTS REGISTRATION OVER.

South Overlooking an Important Factor in Lumber Production.

ENORMOUS GROWTH.

The Annual Output Increasing at Such a Rate That Timber Will Be Exhausted in a Very Few Years if Not Checked.

Baltimore, July 27.—In 1880 the Southern Lumber mills had an output valued at \$38,116,000. In 10 years this has advanced to \$105,575,319. Since then there has been a steady increase in production, until today it may be comparatively estimated that the value of the output, including the material used for crossties, fuel and fencing and the naval stores by-products is between \$325,000,000 and \$350,000,000. With no change in the methods which have been generally followed in lumbering operations the output in the south might be expected to reach at some time a point where an annual decline instead of an annual increase will be reported, but this may be prevented and the timber of the south may be made a perpetual source of wealth. In this week's issue of the Manufacturers' Record is noted the beginning of a plan for a conservative handling of southern forests, which, generally applied, will make them permanently productive. On this point the Manufacturers' Record says: "For several years George W. Vanderbilt, on his estate at Biltmore, N. C., has been giving to the south and to the rest of the country a magnificent object lesson of scientific handling of forests. Much of the advance made by the south as a producer of lumber has been due to the failure in other parts of the country to adopt plain, common sense methods in lumbering operations. Immense tracts of timber land have been denuded by the wholesale, with a great waste of timber, destruction of younger growth and an absolute disregard of the future. With the transfer of energies to the south and an acceleration of those already there, like carelessness and lack of foresight have been manifested.

"The efforts of the forestry division of the United States department of agriculture culminating in the plan for a vast forest reservation at the summits of the Appalachians in five or six southern states and the work of such progressive men as Mr. Vanderbilt have done much to fasten attention upon the necessity for a conservative handling of the forests still standing in the south and a restoration of woodland in regions devoted wholly to agriculture, or left to waste after the turpentine workers and lumbermen have wrought their work.

"One state in the south which has come to the front as a lumber producer seems destined to become the leader in the adaptation of common sense and science to lumbering undertakings. In connection with the organization of the \$30,000,000 Houston Oil company in Texas the statement was made that it had entered into a contract with the Kirby Lumber company, organized at the same time for the sale and manufacture of the timber standing on the 1,000,000 acres of its oil lands. This contract involves the cutting of 8,000,000,000 feet of timber at the rate of not less than 350,000,000 feet a year. In the minimum only shall be cut nearly 23 years will cover the contract.

"Under ordinary conditions it might be expected that the close of those 23 years would show a vast tract of waste land at the mercy of the elements. The contract between the oil company and the lumber company contemplates no such thing. It looks to the exploitation of the forest and, at the same, to its indefinite preservation, if not cultivation. No tree less than one foot in diameter is to be cut and care is to be had that saplings and other young growth are to be uninjured. The results of this undertaking may be estimated for the particular tract. They mean a source of steady wealth."

In spite of the decrease of pine in the rest of the country there are large amounts of virgin timber of the kind in several states toward which the saw mill and the lumber railroad are advancing. Increasing demands of agriculture may require a permanent clearing of some of the uncut forests, but there are vast tracts best suited to forest growth, not only as sources of lumber supply, but as regulators of the flow of streams important to commerce and manufactures and as equable modifiers of climate. At the same time the rise of such industries centers as High Point, N. C., with its woodworking interests, especially furniture making, as their foundation, is increasing the necessity for a steady supply from the saw mill. For many reasons, therefore, the success of the Texas experiment should lead to similar action in other parts of the south.

Over 167,000 After the 13,000 Free Homes in Oklahoma.

MIXING FOR DRAWING

The Great Lottery Will Begin at El Reno Monday Morning—Hearing of Lone Wolf's Infancy Was Completed.

El Reno, O. T., July 27.—When the booths closed here Friday night at the end of the last registration day the total registration for both districts reached 167,606. The registration at El Reno Friday was 3850, making a total of 136,815. Friday's registration at Lawton was 532, making a total for that place of 30,691.

The commissioners in charge of the drawing in connection with the opening of the Kiowa and Comanche lands are A. W. Richards, Frank Dale and D. E. Ewer, and held their first conference Friday afternoon. The following formal announcement was given to the public: A platform will be erected in the streets upon which the drawings will be conducted in plain view.

Envelopes containing the names of all registered applicants will be placed in two boxes, one for each land district. These boxes will be large enough and so constructed and mounted as to admit of a thorough mixing of the envelopes. On Monday morning July 29, the envelopes containing the names of all who have registered will be brought to the platform in packages consecutively numbered. A corresponding series of numbers on slips will be placed in some receptacle from which they will be drawn at random. This course will be pursued until 500 names are drawn from each box, when, if the committee deems it best to do so, arrangements will be made for drawing simultaneously from each box. After the names have been drawn and announced they will be recorded and a notice prepared to be mailed to the one whose name is drawn. The drawing will proceed in this manner until every envelope in both boxes have been drawn out.

Arguments on the application of Lone Wolf and other disgruntled Indians for an order enjoining the opening of the Kiowa, Comanche and Apache reservations were heard Friday before Judge Irwin of the territorial supreme court. Judge Irwin will make his decision known on Monday morning at 9 o'clock. The drawing of the homesteads is set to begin at that hour at El Reno. Government officials have already stated that the case will not interfere with the opening.

J. W. Scothorn, assistant United States attorney, representing the government, argued that no court had jurisdiction to restrain executive officers of the federal government from proceeding under an act of congress. He argued further that a treaty with the Indians had no more standing than a treaty with a foreign nation and that the latter could be broken at any time. Any law enacted after the abrogation of the treaty would, he contended, control in the issues that might arise.

R. G. Hays and C. Porter Johnson of Oklahoma City made the arguments for the Indians. Lone Wolf was not in court.

Opportunity for Boomers.

Guthrie, O. T., July 27.—The Rock Island Railway company has put on an extra force of 300 men and teams to push the grading on the Fort Sill branch. It is employing all the boomers and prospective settlers waiting for the opening it can get. The track is now laid to Cash creek and the company will erect a depot at once. The town will be named Richards by the company, in honor of Governor Richards. Train service will be established in a few days and regular trains will be running as far as Chandler creek by Aug. 6, if present arrangements do not miscarry.

Damage by Earthquake.

Salt Lake City, July 27.—A section 75 miles wide through the Nevada desert from Death as far west as Carlin, experienced a series of heavy earthquake shocks Friday afternoon. The vibrations generally were from north to south and at one or two points lasted fully five seconds.

At Elko, Nev., the shock was unusually severe. The high school building, a new brick edifice, was badly cracked by the violence of the vibrations, and other buildings were slightly damaged. The earthquake was followed by heavy rain.

Girl Burned to Death.

Guthrie, O. T., July 27.—Miss Ellie Froggett, aged 17, of Byron attempted to throw an apron full of paper and dress clippings into the stove and her clothing ignited from the sudden shooting of the flames. She ran out of the house into the wind and was burned to death in spite of the efforts of her

father and brother to extinguish the flames, both of whom were also severely burned.

Internal Revenue Receipts.

Washington, July 27.—The annual preliminary report of Commissioner of Internal Revenue Yerkes for the fiscal year ending June 30, 1901, shows that receipts from all sources of internal revenue for the year aggregated \$306,871,669, an increase of \$11,555,561 over the receipts for the fiscal year ending June 30, 1900.

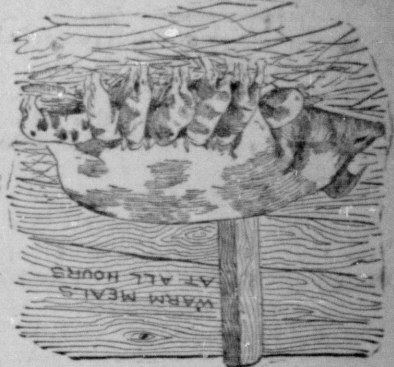

All Powers Will Sign.

Washington, July 27.—Commissioner Rockhill has reported to the state department that negotiations at Pekin will close within two weeks with signature to protocol by all the powers.

Shamrock Sails for America.

Gourock, July 27.—Shamrock II, accompanied by the Erin, sailed at 10:20 o'clock this morning for New York. Great enthusiasm was displayed as the challenger departed.

The congress on tuberculosis in
London recommended the suppres-
sion of expectoration in public
places. This is a good thing to do
on general principles. Spitting on
the sidewalks, in the cars and in
other public places is not permitted
in San Antonio and the law is rig-
idly enforced, with the result that
the streets are kept perfectly clean.

QUESTION ANSWERED.

Yes, August Flower still has the
largest sale of any medicine in the
civilized world. Your mothers' and
grandmothers' never thought of
using anything else for Indigestion
or Billiousness. Doctors were
scarce, and they seldom heard of
Appendicitis, Nervous Prostration
or Heart failure, etc. They used
August Flower to clean out the sys-
tem and stop fermentation of undig-
ested food, regulate the action of
the liver, stimulate the nervous and
organic action of the system, and
that is all they took when feeling
dull and bad with headaches and
other aches. You only need a few
doses of Green's August Flower, in
liquid form, to make you satisfied
there is nothing serious the matter
with you. Get Green's Prize
Almanac. For sale by Wilson-Jen-
kins Drug Co.

A GREAT WORK WELL DONE

FOR THE WELFARE AND ADVANCE-
MENT OF TEXAS IN HER GREAT-
EST INDUSTRY.

THE TEXAS FARMERS CONGRESS

Passed into History—Brief Review of
the Salient Features—Important Res-
olutions Passed, Including Embrace-
ment of A. & M. College as Loca-
tion of Industrial School, Agricul-
tural Education in the Public
Schools, and Touching Oth-
er Important Matters.

The fourth annual session of the
Texas Farmers' Congress was held
at College Tuesday, Wednesday
and Thursday last, with a large at-
tendance of agriculturists from all
over Texas, and quite a sprinkling
of prominent men of other callings
and under auspices the most favor-
able for a great and glorious re-
union of the thinking, progressive
agriculturists of the state. The
great newspapers of Texas sent
their ablest men to write it up, and
quite a number of editors of the
country press were there. The
circumstances all pointed to the
fact that Texas has opened her
eyes and sees how big a thing the
Texas Farmers' Congress really is,
and treats it accordingly.

The Congress was called to order
by the President, J. H. Connell, at
2 o'clock p. m. on Tuesday, July
23, in Assembly hall, A. & M. col-
lege. Attendance about 200, at
this first meeting of the general
session.

A discussion followed a paper on
corn culture, that worked up a
great deal of interest, and one re-
sult was the offer of \$60,000 cash
and two pairs of fine pigs for
the best corn raised in Texas.

The discussion of the subject of
landlords and tenants elicited a
great deal of interest and some
lively speeches. It was the general
conclusion that now is the time for
people to acquire homes in Texas,
as lands are rapidly increasing in
value.

At the conclusion of this session,
Mr. John S. Kerr having assumed
the chair, preliminary to the ad-
dress of the president, referred in
detail to the arduous duties that had
fallen upon Professors Connell, the
president, and Pittuck, the secre-
tary, since the inception of this
organization, and assured these
earnest workers that their efforts
in behalf of agriculture were ap-
preciated by the people of the State.

President Connell then read the
annual address, which was punc-
tuated by frequent liberal applause.

By Wednesday the attendance
of the Congress had increased to
about 350 people, and the exhibits
from over the State had been re-
ceived and set in position, making
a highly interesting and instructive
display.

Wednesday's general session was
called to order at 10:30 a. m., pres-
ident Connell in the chair and
Secretary Pittuck at the desk.

Among the announcements by
Secretary Pittuck, was one that
those desiring to co-operate with
the agriculturists of the experi-
ment station could do so by formal
application, upon receipt of which
the usual blanks and list of seeds
available for experimental trial
would be sent. All interested
would be invited to come up after
the meeting and take a copy of the
bulletin and secure a seed list.

The subject of "Texas Tobacco
Industry" was discussed, opened
by H. S. Edler of Nacodoches.
Mr. Edler stated that East Texas
is as fine a tobacco country as any
in the United States. He gave
useful detailed information about
planting, culture, curing and
marketing tobacco. Mr. Edler had
a display of tobaccos raised on his
tobacco farm at Nacodoches.

E. J. Atchley of Beeville read an
interesting paper on "Honey Re-
sources of Texas."

Secretary Pittuck read his report
on the work of the congress during
the past year. Among his sugges-
tions was that the next published
proceedings be printed by the
congress, and to raise a fund for
this expense, he suggested that all
members and visitors present sub-
scribe for as many copies as they
wish, paying 25 cents per copy,
and that the regular sale price of
the volume be fixed at 50 cents
when sold after the book is issued.

The committee upon premiums
for the best corn grown in Texas
reported, and the report as amend-
ed was adopted, as follows:

Seven premiums were offered.
Four premiums of \$25 each and
as much more as can be raised by
the congress are to be given, first,
for best acre of corn grown upon

one acre of black land, unfertilized;
second, one acre of sandy or choco-
late land, unfertilized; third, one
acre of black land fertilized; fourth,
one acre of sandy or chocolate land
fertilized.

The following three premiums
were unrestricted as to locality:
First, \$25 silver pitcher for best
five ears of corn; second, \$10 for
second best five ears; third, \$5 for
third best five ears.

A special premium of one pair
of Duroc Jersey pigs for best acre
of corn grown upon one acre of
black land, unfertilized. The
same premium is offered for best
acre grown upon sandy or choco-
late land, unfertilized.

The secretary announced that
\$160 was to be raised to defray the
expenses of the congress for the
past year. Colonel F. P. Holland
immediately arose and announced
that the Farm and Ranch would
subscribe \$100 of this and on be-
half of his friend, R. A. Ferris of
Dallas, he subscribed the remain-
der in his name, which subscrip-
tions were received with many
cheers.

The Congress, upon motion, ex-
tended thanks to Colonel Holland
by a rising vote.

The committee on rural mail
and telephones reported, reciting
the extension of rural mail delivery
in this State and mentioned the
importance of extending these
facilities into every community
justifying the same. The conven-
ience and importance of rural tel-
ephones was exhaustively discussed
and a plan for putting the same in-
to operation was suggested. It
was proposed to connect rural tel-
ephones not only with the different
farms, but also with the adjacent
towns and having the privilege of
connecting with the long distance
system. The report was adopted.

The committee on education re-
ported that in view of rapidly de-
veloping agricultural interests in
Texas, the State should make ample
provision for the agricultural edu-
cation of the State's youths. The
educational institutions now in
Texas were heartily indorsed. The
limitations of the Agricultural and
Mechanical College were empha-
sized. The committee recommen-
ded that industrial and textile
schools be located here, open alike
to both sexes, and that the statute
be so amended as to cause the
normal school to teach science.
The report was adopted.

Oswald Wilson offered a resolu-
tion reciting that whereas agricul-
ture was of primary importance to
Texas, and the present tendency
of the public schools is to educate
away from the farms to the cities,
the system should be changed so
as to include the study of scientifi-
c agriculture in the curriculum of
Texas public schools and the laws
be so changed as to require this,
and a committee from the congress
be appointed to present it to the
Legislature. Report was adopted.
The general session adjourned
at 11 o'clock p. m.

Thursday was the last day of
the Congress. A meeting of the
general session was called at 11
o'clock. Col. L. L. Foster, pres-
ident of the A. & M. College, de-
livered an address upon "The Ag-
ricultural and Mechanical College." The
address was practical, sensible
and forcible, delivered in an ex-
ceedingly pleasing style, and made
friends for the great school and its
worthy president.

On motion, the selection of offi-
cers for the ensuing year was
declared in order, and President J.
H. Connell was re-elected pres-
ident, and Mr. B. C. Pittuck sec-
retary. This action was done with
brevity which showed the high
fastidious estimate placed upon the
work of these gentlemen heretofore
in these important and laborious
places.

At the night session, among the
most important business transac-
ted was a motion that a committee
of five with President Connell as
chairman, be appointed, as pro-
vided in the resolution passed last
night relating to the introduction
of agricultural science into the cur-
riculum of Texas public schools.
Resolution adopted.

Mr. Pickett was called to the
chair temporarily, and the follow-
ing committee appointed: John
D. Fields, Don O. Lazer, E. W.
Kirkpatrick, Oswald Wilson, in
addition to President Connell.

With the adjournment of the
night session the Fourth annual
Farmers' Congress passed into
history, and no prouder distinction
need be desired by a citizen of
Texas than to have been one of
the earnest, intelligent, wide awake
men who made the Farmers' Con-
gress the great factor that it is in
the material welfare of the great
state of Texas.

MAKES A NEW MOVE.

Tube Works Employees to Denounce the
Union and Sign Contracts.

Pittsburg, July 27.—The National
Tube Works company at McKeesport
has made an unexpected move intended
to checkmate the Amalgamated associa-
tion. Their skilled workmen have been
asked to sign individual contracts to
practically repudiate any union labor
and they have been given but a short
time to think the matter over. It is
said that if they should not sign the
contracts they will find their positions
vacant.

Thursday evening the 600 welders of
the mills were paid off and taken into
the office of the general superintendent
where they were presented with indi-
vidual contracts to be signed for at
least a year. Some demurred while
others signed the contracts. This move-
ment, fighting fire with fire, carried
consternation into the ranks of the
strikers. The welders are highly skilled
workmen and with their co-operation
the big plant might be closed down.
With them in line the plant will prob-
ably keep on running.

Definite announcement that the offi-
cials of the American Sheet Steel com-
pany would start the W. Dewees wood
mill in McKeesport as a non-union
plant on Monday has reached the head-
quarters of the Amalgamated associa-
tion. The movement will not be per-
mitted to be made without a decided
attempt to check it. While the rank
and file of the strikers are not acquaint-
ed with the plans of the campaign they
now believe that the important develop-
ments will change the aspect of affairs
considerably.

Capitol Syndicate Trying to Settle

Fort Worth, Tex., July 27.—A con-
ference is in progress here between rep-
resentatives of contending factions in
Capitol syndicate now controlled by the
Farwell interests of Chicago. Manager
A. G. Boyce, who has been in control
of the property for the past 14 years,
states that proceedings were begun by
holders of 360 shares out of 400,000.
The ranch property consisted of 3,250,-
000 acres, and 120,000 cattle, and there
was branded last year 36,000 calves.
The protest against the appointment of
a receiver will state the property did
not pay expenses for the first seven
years. Farwell paid running expenses
out of his own pocket, amounting to
\$450,000 annually. Recently 700,000
acres were sold at \$2 per acre also 19,-
000 cattle, total consideration for the
land and cattle being \$1,750,000.

Wife Beater Punished.

Wheaton, Ill., July 27.—Enraged be-
cause of his continued abuse of his wife
800 men of west Chicago, a little village
30 miles west of Chicago, seized Valen-
tine Miller and covered his naked body
with two coats of tar and feathers. A
few minutes later a second mob caught
him and tied a rope about his neck, and
threatened to lynch him. Miller finally
escaped. A warrant was issued for
Miller's arrest but he was not captured.

General Wood Leaves Havana.

Havana, July 27.—General Wood was
taken on the steamer Morro Castle
today. He expressed himself as be-
ing quite well and wanted to walk
aboard the vessel, but the doctors in-
sisted upon his being carried on board
on a portable cot. Deep sympathy for
General Wood was shown by Cubans of
all classes upon his departure. The
Morro Castle is due at New York next
Tuesday.

Almost a Blockade.

Kansas City, July 27.—The Chicago
and Alton has been for several days un-
able to secure sufficient water for its
trains, and as a result has allowed the
freight to accumulate in its yards here
until it has reaching the proportion of
a blockade. The road has refused grain
shipments on this account. Several
times it has been difficult to get water
for its passenger engine.

Killed by a Woman.

Shelbyville, Ind., July 27.—William
Gray, commonly known as "Billy"
Gray, was shot and instantly killed by
Mrs. Mark Frieze, at the Red Mills, 10
miles northwest of this city. The only
cause known for the shooting was that
Gray had been keeping company with
Mrs. Frieze's daughter and were expect-
ed to marry, when Gray married another
woman.

Cotton Benefited by Rains.

Dallas, July 27.—The drought has been
broken by good rains in approximately 30
per cent of the cotton growing districts.
These rains have fallen regularly for
the last four days over the extreme
northern and southern rims of the cot-
ton belt, 80 per cent of the cotton lands
in the central district received only lo-
cal and scattering showers.

Acquittal Expected.

Manila, July 27.—At the trial of
Lieutenant Preston Brown of the Sec-
ond infantry on a charge of murdering
a native near Binangonan, it was pro-
ved the native was killed while trying
to escape and the acquittal of Lieuten-
ant Brown is expected.

The Maine Successfully Launched.

Philadelphia, July 27.—The battle-
ship Maine was successfully launched
at Cramp Ship yards here today. An
immense crowd witnessed the launch-
ing. No hitch occurred.

Jeremian Riesco, for the next president
of the republic.

Encampment a Success.

Austin, July 27.—The encampment
here was a grand success and valuable
instruction given the state militia. The
sham battle was a splendid spectacle
and witnessed by the largest crowd ever
gathered here, except possibly the visit
of President McKinley.

Houston Votes for Bonds.

Houston, July 27.—The result of the
election here Thursday to issue bonds
for paving streets in the sum of \$240,-
000, for sewerage \$80,000 and for school
buildings \$30,000 was not a surprise, as
there seems to be a strong disposition
to spend money and make improve-
ments in this city.

Killed by Lightning.

Leesville, Tex., July 27.—John Brat-
tin of this place received a message
from Cotulla stating that his grandson,
Dudley Bratton, was killed near there
by lightning.

El Paso and Southwestern.

Santa Fe, July 27.—The El Paso and
Southwestern railway, with a capital of
\$7,000,000 to build the connecting links
in Phelps, Dodge & Co.'s railway line
in Arizona and New Mexico from Naco-
sari, Mex., to El Paso, Tex., by way of
Bishoe, Clifton and Deming, with 350
miles of road, was incorporated here.
Also the subsidiary companies of the
Southwestern railway of Arizona, whose
main line will be 52 miles in length and
the Southwestern railway of Arizona,
Bishoe branch, 22 miles long.

Sentenced Banker Pardoned.

Washington, July 27.—The president
has granted a pardon to John F. John-
son, former president of the First Na-
tional bank at Logansport, Ind., who
was convicted of misappropriating the
funds of the bank and other violations
of the national bank act. He was sen-
tenced to 10 years in the penitentiary
and has already served five years.

New Trotting Record.

Cleveland, July 27.—Amid the cheers
of nearly 10,000 people Cresceus, the
world's champion trotting stallion, again
demonstrated that he is the peer of all
trotters by trotting a mile here in 2:02 1/4.

Mexican Stabs a Chinaman.

San Antonio, July 27.—Lok Sing, a
Chinaman, was stabbed several times
and dangerously wounded in a fight
here. E. S. Patecha, a Mexican em-
ployed by Smg, was arrested and jailed.

Imports and Exports.

Washington, July 27.—The total im-
ports into the United States for the year
ended June 30, 1901, were \$823,674,016
total exports \$1,467,755,557; exports of
domestic products, \$1,670,453,809.

Society

A column devoted to society events of the week will appear in each Sunday's Morning Eagle. Notes and all reports of society events are requested. No manuscripts are solicited for publication verbatim, however, but it is requested that matter be submitted, to be worked up by the society editor.

A crowd of about twenty young people, chaperoned by Mr. and Mrs. J. N. Lawrence, spent the past week at Sulphur Springs, where they had the best time in their lives fishing, hunting and enjoying camp life. The party returned yesterday.

Mrs. J. N. Lawrence and Sadie Mawhinney entertained their little friends to the number of fifty or more at a lawn party Thursday night at the residence of Mr. and Mrs. J. H. Mawhinney. Games and refreshments made the evening a delight to all.

Last Wednesday evening Master Aubrey Rhodes, who left the following morning with a fishing and hunting party for Sulphur, I. T., entertained a merry company of his young friends, eight or ten couples, at the home of his parents, Col. and Mrs. A. M. Rhodes in the northern part of the city, from 8 to 11 o'clock. Music, dancing, games and refreshments made the evening pass pleasantly for all.

Mr. E. B. Lomax is never tired of planning nice times for the children and nobody can win their hearts more quickly and completely than he. Yesterday he took a jolly crowd of boys and girls out into the country for a picnic. The big express wagon was hitched up and filled full and a number of the boys and girls rode ponies. A fine dinner and a good time for everybody was the result. The picnic was given in honor of Misses Cecile Mistrot of Galveston, Judy McConico, Hattie Ray Harbers and Irene Harman.

The lawn at the pretty new home of Mr. and Mrs. Cliff A. Adams was the scene of merry-making by thirty couples of the younger set Tuesday evening. The occasion was a shirt waist watermelon party given by Misses Nonie Adams and Lilla Graham McInnis. The boys and girls all wore shirt waists. Watermelons and punch were the refreshments. The latter was daintily dispensed by Misses Alberta Adams and Malcolm McInnis. A feature of the amusement was a watch contest in which the prizes went to Miss Nellie Robinson of Dallas and Miss Adele Read.

With the ever changing seasons of the past few years sly Cupid has led to Hymen's altar many couples of Bryan's young people, so that the social circle, while none the less charming in personnel, is not as large as formerly. Some of the young bachelors, therefore, who go upon the principle that "the more the merrier," took the initiative last Thursday evening and invited a number of the girls of the younger set to go hay riding. The invitation was accepted and the party, chaperoned by Mr. and Mrs. T. K. Lawrence went out to Still Creek, had a watermelon feast on the wagon bridge, and no end of fun. Messrs. Ed Saunders, George Smith and Johnnie Wilson were responsible for the good time the crowd had.

Boys and girls will generally agree that the funniest party in the world is the tacky party. There is absolutely no limit to the amusement afforded by the variety of costumes effected and the way they look on friends we are accustomed to see neatly dressed. In order to give their young friends the best kind of a time possible at a party for boys and girls, Miss Gussie and Master Frank Buchanan gave a tacky party Friday afternoon and the home of their parents, Mr. and Mrs. A. J. Buchanan, was the scene of the gayest and jolliest crowd of about sixty we have seen in a long time. Charlie Adams got the prize for the tackiest boy and Miss Malcolm McInnis for the tackiest girl. The prize for the tackiest couple went to Derden Chance and Miss Louise Harris. In advertising guessing contest prizes were awarded to Miss Lucile DeMaret and Mat Bethel, Miss Ray Conway and Rudolph Myers. Cake, lemonade and watermelons were the refreshments.

Place and Furniture for Sale.

Desiring to break up housekeeping, Mrs. G. G. Nass offers for sale her place one block north of courthouse; also a lot of very handsome furniture including a piano, three bed room sets, parlor set, dining room set, tables, easels, hall tree, chairs, sideboard, sewing machine, cooking stove, etc. The place is desirably located for rent house and the furniture is clean, new, without scratches and unusually handsome. Prices very low. Call and see Mrs. Nass at residence. 206

Electric Belts.

I wish to notify the people of Brazos and surrounding counties that I am manufacturing an electric belt that is a positive cure for nearly all the ills to which man is subject. They are no humbug, and are sold under a positive guarantee. I have the testimonials of reliable persons whom I have cured. All who wish one can get same from T. A. Searcy at the Bryan Grocery Co's. store. Price \$1.00. Chas. Claydon.

To Cure Dyspepsia and Indigestion. Sour Stomach or Heartburn, take **Flex Dyspepsia Tablets**. All druggists are authorized to refund money if they fail to cure. Price 50 cents. M. H. James, the leading druggist, Bryan, Texas.

Mrs. Knox Howard returned from Navasota yesterday.

B. S. READ, Druggist.

SAMPSON INTERVIEWED.

He Talks to a Reporter About the Santiago Blockade.

New York, July 27.—The Herald correspondent at Boston has obtained an authorized interview with Rear Admiral Sampson upon the points in controversy as a result of the Santiago campaign. The questions and answers which follow were transcribed and the typewriter copy of the interview submitted to the admiral for correction.

"Admiral you have been severely criticised of late for starting to Sibony on the morning of the Santiago battle. What was your reason for so doing," was asked.

"I went to Sibony upon an urgent request of Major General Wood, who had demanded a council of war. He being ill at the time, and, moreover, being senior to me, it was incumbent upon me to go to him. I chose the time of day when it seemed least likely that Cervera's fleet would come out of the harbor. This opinion is substituted by the fact that Cervera has been severely criticised for choosing this opportune time rather than waiting until just before dark when he would have an opportunity to scatter his ships with a good chance of escaping in the darkness."

"You have also been criticised for weakening your fleet by your sending the battleship Massachusetts to Guantanamo for coal. Your critics say you should be court-martialed for not keeping your entire force on the blockade line and coaling from colliers."

"This weakening of the line was an unavoidable feature of the blockade. Although we did do considerable coaling from the colliers on the blockade line, we found it impossible to keep sufficient supply on board all the vessels by this method. It must be remembered that the vessels were constantly under way and had to keep steam in enough of their boilers to be ready to move at good speed on immediate notice. This involved the expending of coal faster than it could be put on board, and we were therefore obliged to send a vessel each morning to Guantanamo to coal, the vessel returning to her blockade station at nightfall. In this way you can see that the whole force was on hand throughout every night—the time when all supposed it was most likely to be needed."

"Furthermore, while it would, of course, have been best had it been possible to have had every ship in her station at all times, there never was a time from June 1 to July 3 when our force on the blockade was not far superior to the Spanish force inside. So, the absence of one ship, as events afterward proved, left us with sufficient force to make successful the outcome of the engagement."

"The message, which you sent to the navy department immediately after the victory and which read: 'The fleet under my command offers the nation as a Fourth of July present,' etc. Admiral, as you know, has caused much criticism. Was that written by you or at your dictation?"

Admiral Sampson said the message was written by one of his staff, but said he approved the message before it was sent.

When asked if the blockade established by Schley was not sufficient he said he made a change when he took charge, believing such a change would be more effective.

"One other thing, admiral, Rear Admiral Schley in a recent interview claimed that the Brooklyn inflicted 53 per cent of the damage done the Spanish ships and received 54 per cent of the injuries sustained by the blockading squadron."

"I do not wish to criticise Schley or any of his statements. I do not want to be brought into any discussion in which he is involved. His statements may be perfectly true. The exact figures are unimportant. I will repeat now what I said before, that the Brooklyn did excellent work in the battle. To the best of my recollection I never criticised the Brooklyn except for her initial movement, a movement which, in my opinion, was an error of judgment. I do not wish to say anything more on that subject."

Paymaster Robbed.

Manila, July 27.—During the payment of troops at Santa Cruz Friday \$20,000 was stolen from the guardhouse. The robbery of the paymaster's safe is supposed to have been the work of soldiers. It appears that Major Canby, who was paying the troops in Laguna district, left the safe in the guardhouse and that while it was there the thieves succeeded in abstracting the contents. Gen. Chaffee has sent the chief of Manila detectives to Santa Cruz to investigate the affair.

Supposed Treasure Found.

Calwell, Tex., July 27.—Some few days ago some unknown parties dug a hole on the plantation of Tom Bird, only a few miles from here. On the side of the excavation was found an old pot, which gave evidence of having been filled with coin. On some post-oaks near by were some old Spanish pointers, and on a rock near the place was engraved a cross and some other symbols.

British Forced to Retreat.

London, July 27.—Kitchener reports that a detachment of Steiner's Horse occupying Bremersdorp was forced to evacuate on July 24 by a superior force of Boers. The detachment fought all the way to Lembodo, a distance of 16 miles, losing about 40 killed or wounded and a few missing.

PRECEPT IN SCHLEY CASE

Takes in All Acts of the Admiral During the Spanish War.

Washington, July 27.—The precept to the Schley court of inquiry has been given to the public. It is addressed to Admiral Dewey, as president of the court, instructing him concerning the matters to be investigated. While it directs that the "entire matter" of Admiral Schley's conduct during the operations in West Indian waters shall be investigated, it also selects certain acts of Schley concerning the facts and propriety of which it calls for particular investigation. These points cover briefly Admiral Schley's alleged delay with the flying squadron at Cienfuegos; the slowness of his progress toward Santiago after leaving Cienfuegos; the retrograde movement toward Key West; the effectiveness of the bombardment of the Spanish fleet and the ranges used in the reconnaissance of May 31; the state of the coal supply on various ships when he telegraphed the department that he would return to Key West; the loop of the Brooklyn at Santiago and the accuracy of his reports and matters relating to the controversy between him and Commander Hodgson, over the alleged colloquy which is said to have taken place aboard the Brooklyn, when the loop was made during the naval engagement off Santiago.

With the exception of the last two counts the others practically sum up the criticisms of Admiral Schley's conduct made by Secretary Long to the senate, which the secretary characterized as Schley's "reprehensible conduct." One of the important points in the precept is the direction to the court to report in its conclusions "all the pertinent facts which it may deem to be established together with its opinion and recommendations in the premises."

The court will probably sit for several months, more than likely until after congress convenes in December.

Judge Lemly has not yet decided who the witnesses before the court shall be. They may be taken from the navy, from the army or from civil life, for undoubtedly some of the newspaper correspondents will be called in the case. It is even probable in view of the recent interview of Captain Eula of the Spanish navy, that he and Admiral Cervera himself will be called if Admiral Schley desires it.

Gambling House Robbed.

Tucson, A. T., July 27.—A gambling house at Naco, known as the "Big Adobe," was held up by a desperado. Dave Crockett, owner of the place, had just placed money in a bag amounting to several thousand dollars, when a desperado appeared and threw down a six-shooter. "I'll take care of those," was all he said. As he backed toward the door some one in the rear of the gambling hall fired two shots at him. The desperado returned the fire, but no one was hurt. He mounted his horse and rode into the mountains.

The Biggest Baby.

Colorado Springs, Colo., July 27.—Mr. and Mrs. Frank Leaf, of Colorado Springs, are the proud parents of possibly the largest baby boy ever born in America. His net weight is 17 pounds, height 24 inches and chest measurement 15 3/4 inches. Dr. D. H. Rice says there is nothing abnormal about him except his size, which exceeds that of any child born in Colorado, and possibly in America.

LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

MAKE no mistake! See that my head is on every package of

LION COFFEE

you buy. It guarantees its purity. No coffee is

LION COFFEE

unless it is in a 1 pound sealed packet with the head of a lion on the front. Then you get pure coffee—the highest grade for the money.

Watch our next advertisement.

Why has LION COFFEE

now become the leader of all package coffees? And why is it used in millions of homes?

Because it does not sail under false colors. It is an absolutely clean, pure coffee. No glazing, no coating with egg mixtures or chemicals in order to hide imperfections.

Just try a package of LION COFFEE

and you will understand the reason of its popularity.

In every package of LION COFFEE you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).

WORLEY
PROPRIETOR.

TO SAVE THE FORESTS REGISTRATION OVER.

South Overlooking an Important Factor in Lumber Production.

ENORMOUS GROWTH.

The Annual Output Increasing at Such a Rate That Timber Will Be Exhausted in a Very Few Years if Not Checked.

Baltimore, July 27.—In 1880 the Southern Lumber mills had an output valued at \$38,116,000. In 10 years this has advanced to \$105,575,819. Since then there has been a steady increase in production, until today it may be comparatively estimated that the value of the output, including the material used for crossties, fuel and fencing and the naval stores by-products is between \$325,000,000 and \$350,000,000. With no change in the methods which have been generally followed in lumbering operations the output in the south might be expected to reach at some time a point where an annual decline instead of an annual increase will be reported, but this may be prevented and the timber of the south may be made a perpetual source of wealth. In this week's issue of the Manufacturers' Record is noted the beginning of a plan for a conservative handling of southern forests, which, generally applied, will make them permanently productive. On this point the Manufacturers' Record says: "For several years George W. Vanderbilt, on his estate at Biltmore, N. C., has been giving to the south and to the rest of the country a magnificent object lesson of scientific handling of forests. Much of the advance made by the south as a producer of lumber has been due to the failure in other parts of the country to adopt plain, common sense methods in lumbering operations. Immense tracts of timber land have been denuded by the wholesale, with a great waste of timber, destruction of younger growth and an absolute disregard of the future. With the transfer of energies to the south and an acceleration of those already there, like carelessness and lack of foresight have been manifested.

"The efforts of the forestry division of the United States department of agriculture culminating in the plan for a vast forest reservation at the summit of the Appalachians in five or six southern states and the work of such progressive men as Mr. Vanderbilt have done much to fasten attention upon the necessity for a conservative handling of the forests still standing in the south and a restoration of woodland in regions devoted wholly to agriculture, or left to waste after the turpentine workers and lumbermen have wrought their work.

"One state in the south which has come to the front as a lumber producer seems destined to become the leader in the adaptation of common sense and science to lumbering undertakings. In connection with the organization of the \$30,000,000 Houston Oil company in Texas the statement was made that it had entered into a contract with the Kirby Lumber company, organized at the same time for the sale and manufacture of the timber standing on the 1,000,000 acres of its oil lands. This contract involves the cutting of 8,000,000,000 feet of timber at the rate of not less than 350,000,000 feet a year. In the minimum only shall be cut nearly 23 years will cover the contract.

"Under ordinary conditions it might be expected that the close of those 23 years would show a vast tract of waste land at the mercy of the elements. The contract between the oil company and the lumber company contemplates no such thing. It looks to the exploitation of the forest and, at the same, to its indefinite preservation, if not cultivation. No tree less than one foot in diameter is to be cut and care is to be had that saplings and other young growth are to be uninjured. The results of this undertaking may be estimated for the particular tract. They mean a source of steady wealth."

In spite of the decrease of pine in the rest of the country there are large amounts of virgin timber of the kind in several states toward which the saw mill and the lumber railroad are advancing. Increasing demands of agriculture may require a permanent clearing of some of the uncut forests, but there are vast tracts best suited to forest growth, not only as sources of lumber supply, but as regulators of the flow of streams important to commerce and manufactures and as equable modifiers of climate. At the same time the rise of such industrial centers as High Point, N. C., with its woodworking interests, especially furniture making, as their foundation, is increasing the necessity for a steady supply from the saw mill. For many reasons, therefore, the success of the Texas experiment should lead to similar action in other parts of the south.

Over 167,000 After the 13,000 Free Homes in Oklahoma.

FIXING FOR DRAWING

The Great Lottery Will Begin at El Reno Monday Morning—Hearing of Lone Wolf's Injunction Was Completed.

El Reno, O. T., July 27.—When the booths closed here Friday night at the end of the last registration day the total registration for both districts reached 167,908. The registration at El Reno Friday was 3950, making a total of 136,315. Friday's registration at Lawton was 532, making a total for that place of 30,691.

The commissioners in charge of the drawing in connection with the opening of the Kiowa and Comanche lands are A. W. Richards, Frank Dale and D. P. Ewer, and held their first conference Friday afternoon. The following formal announcement was given to the public: A platform will be erected in the streets upon which the drawings will be conducted in plain view.

Envelopes containing the names of all registered applicants will be placed in two boxes, one for each land district. These boxes will be large enough and so constructed and mounted as to admit of a thorough mixing of the envelopes. On Monday morning July 29, the envelopes containing the names of all who have registered will be brought to the platform in packages consecutively numbered. A corresponding series of numbers on slips will be placed in some receptacle from which they will be drawn at random. This course will be pursued until 500 names are drawn from each box, when, if the committee deems it best to do so, arrangements will be made for drawing simultaneously from each box. After the names have been drawn and announced they will be recorded and a notice prepared to be mailed to the one whose name is drawn. The drawing will proceed in this manner until every envelope in both boxes have been drawn out.

Arguments on the application of Lone Wolf and other disgruntled Indians for an order enjoining the opening of the Kiowa, Comanche and Apache reservations were heard Friday before Judge Irwin of the territorial supreme court. Judge Irwin will make his decision known on Monday morning at 9 o'clock. The drawing of the homesteads is set to begin at that hour at El Reno. Government officials have already stated that the case will not interfere with the opening.

J. W. Seothorn, assistant United States attorney, representing the government, argued that no court had jurisdiction to restrain executive officers of the federal government from proceeding under an act of congress. He argued further that a treaty with the Indians had no more standing than a treaty with a foreign nation and that the latter could be broken at any time. Any law enacted after the abrogation of the treaty would, he contended, control in the issues that might arise.

R. G. Hays and C. Porter Johnson of Oklahoma City made the arguments for the Indians. Lone Wolf was not in court.

Opportunity for Boomers.

Guthrie, O. T., July 27.—The Rock Island Railway company has put on an extra force of 300 men and teams to push the grading on the Fort Sill branch. It is employing all the boomers and prospective settlers waiting for the opening it can get. The track is now laid to Cash creek and the company will erect a depot at once. The town will be named Richards by the company, in honor of Governor Richards. Train service will be established in a few days and regular trains will be running as far as Chandler creek by Aug. 6, if present arrangements do not miscarry.

Damage by Earthquake.

Salt Lake City, July 27.—A section 75 miles wide through the Nevada desert from Death as far west as Carlin, experienced a series of heavy earthquake shocks Friday afternoon. The vibrations generally were from north to south and at one or two points lasted fully five seconds.

At Elko, Nev., the shock was unusually severe. The high school building, a new brick edifice, was badly cracked by the violence of the vibrations and other buildings were slightly damaged. The earthquake was followed by heavy rain.

Girl Burned to Death.

Guthrie, O. T., July 27.—Miss Ellie Froggett, aged 17, of Byron attempted to throw an apron full of paper and dress clippings into the stove and her clothing ignited from the sudden shooting of the flames. She ran out of the house into the wind and was burned to death in spite of the efforts of her

father and brother to extinguish the flames, both of whom were also severely burned.

Internal Revenue Receipts.

Washington, July 27.—The annual preliminary report of Commissioner of Internal Revenue Yerkes for the fiscal year ending June 30, 1901, shows that receipts from all sources of internal revenue for the year aggregated \$306,871,669, an increase of \$11,555,561 over the receipts for the fiscal year ending June 30, 1900.

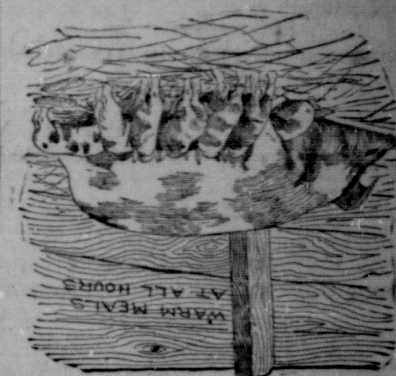

All Powers Will Sign.

Washington, July 27.—Commissioner Rockhill has reported to the state department that negotiations at Pekin will close within two weeks with signature to protocol by all the powers.

Shamrock Sails for America.

Gourock, July 27.—Shamrock II, accompanied by the Erin, sailed at 10:20 o'clock this morning for New York. Great enthusiasm was displayed as the challenger departed.

We killed and wounded more people celebrating the fourth of July than were killed and wounded on our side in the war with Spain; also, the celebration cost more than the actual war expenses over those in time of peace.—Farm and Ranch.

The congress on tuberculosis in London recommended the suppression of expectoration in public places. This is a good thing to do on general principles. Spitting on the sidewalks, in the cars and in other public places is not permitted in San Antonio and the law is rigidly enforced, with the result that the streets are kept perfectly clean.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of the undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of 'Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

A GREAT WORK WELL DONE

FOR THE WELFARE AND ADVANCEMENT OF TEXAS IN HER GREAT-EST INDUSTRY.

THE TEXAS FARMERS CONGRESS

Passed into History—Brief Review of the Salient Features—Important Resolutions Passed, Including Enforcement of A. & M. College as Location of Industrial School, Agricultural Education in the Public Schools, and Touching Other Important Matters.

The fourth annual session of the Texas Farmers' Congress was held at College Tuesday, Wednesday and Thursday last, with a large attendance of agriculturists from all over Texas, and quite a sprinkling of prominent men of other callings and under auspices the most favorable for a great and glorious reunion of the thinking, progressive agriculturists of the state. The great newspapers of Texas sent their ablest men to write it up, and quite a number of editors of the country press were there. The circumstances all pointed to the fact that Texas has opened her eyes and sees how big a thing the Texas Farmers' Congress really is, and treats it accordingly.

The Congress was called to order by the President, J. H. Connell, at 2 o'clock p. m. on Tuesday, July 23, in Assembly hall, A. & M. college. Attendance about 200, at this first meeting of the general session.

A discussion followed a paper on corn culture, that worked up a great deal of interest, and one result was the offer of \$60.00 cash and two pairs of fine pigs for the best corn raised in Texas.

The discussion of the subject of landlords and tenants elicited a great deal of interest and some lively speeches. It was the general conclusion that now is the time for people to acquire homes in Texas, as lands are rapidly increasing in value.

At the conclusion of this session, Mr. John S. Kerr having assumed the chair, preliminary to the address of the president, referred in detail to the arduous duties that had fallen upon Professors Connell, the president, and Pittuck, the secretary, since the inception of this organization, and assured these earnest workers that their efforts in behalf of agriculture were appreciated by the people of the State.

President Connell then read the annual address, which was punctuated by frequent liberal applause.

By Wednesday the attendance of the Congress had increased to about 350 people, and the exhibits from over the State had been received and set in position, making a highly interesting and instructive display.

Wednesday's general session was called to order at 10:30 a. m., president Connell in the chair and Secretary Pittuck at the desk.

Among the announcements by Secretary Pittuck, was one that those desiring to co-operate with the agriculturists of the experiment station could do so by formal application, upon receipt of which the usual blanks and list of seeds available for experimental trial would be sent. All interested would be invited to come up after the meeting and take a copy of the bulletin and secure a seed list.

The subject of "Texas Tobacco Industry" was discussed, opened by H. S. Edler of Nacodoches. Mr. Edler stated that East Texas is as fine a tobacco country as any in the United States. He gave useful detailed information about planting, culture, curing and marketing tobacco. Mr. Edler had a display of tobaccos raised on his tobacco farm at Nacodoches.

E. J. Atchley of Beeville read an interesting paper on "Honey Resources of Texas."

Secretary Pittuck read his report on the work of the congress during the past year. Among his suggestions was that the next published proceedings be printed by the congress, and to raise a fund for this expense, he suggested that all members and visitors present subscribe for as many copies as they wish, paying 25 cents per copy, and that the regular sale price of the volume be fixed at 50 cents when sold after the book is issued.

The committee upon premiums for the best corn grown in Texas reported, and the report as amended was adopted, as follows:

Seven premiums were offered. Four premiums of \$25 each and as much more as can be raised by the congress are to be given, first, for best acre of corn grown upon

one acre of black land, unfertilized; second, one acre of sandy or chocolate land, unfertilized; third, one acre of black land fertilized; fourth, one acre of sandy or chocolate land fertilized.

The following three premiums were unrestricted as to locality: First, \$25 silver pitcher for best five ears of corn; second, \$10 for second best five ears; third, \$5 for third best five ears.

A special premium of one pair of Duroc Jersey pigs for best acre of corn grown upon one acre of black land, unfertilized. The same premium is offered for best acre grown upon sandy or chocolate land, unfertilized.

The secretary announced that \$160 was to be raised to defray the expenses of the congress for the past year. Colonel F. P. Holland immediately arose and announced that the Farm and Ranch would subscribe \$100 of this and on behalf of his friend, R. A. Ferris of Dallas, he subscribed the remainder in his name, which subscriptions were received with many cheers.

The Congress, upon motion, extended thanks to Colonel Holland by a rising vote.

The committee on rural mail and telephones reported, reciting the extension of rural mail delivery in this State and mentioned the importance of extending these facilities into every community justifying the same. The convenience and importance of rural telephones was exhaustively discussed and a plan for putting the same into operation was suggested. It was proposed to connect rural telephones not only with the different farms, but also with the adjacent towns and having the privilege of connecting with the long distance system. The report was adopted.

The committee on education reported that in view of rapidly developing agricultural interests in Texas, the State should make ample provision for the agricultural education of the State's youths. The educational institutions now in Texas were heartily indorsed. The limitations of the Agricultural and Mechanical College were emphasized. The committee recommended that industrial and textile schools be located here, open alike to both sexes, and that the statute be so amended as to cause the normal school to teach science. The report was adopted.

Oswald Wilson offered a resolution reciting that whereas agriculture was of primary importance to Texas, and the present tendency of the public schools is to educate away from the farms to the cities, the system should be changed so as to include the study of scientific agriculture in the curriculum of Texas public schools and the laws be so changed as to require this, and a committee from the congress be appointed to present it to the Legislature. Report was adopted.

The general session adjourned at 11 o'clock p. m. Thursday was the last day of the Congress. A meeting of the general session was called at 11 o'clock. Col. L. L. Foster, president of the A. & M. College, delivered an address upon "The Agricultural and Mechanical College." The address was practical, sensible and forcible, delivered in an exceedingly pleasing style, and made friends for the great school and its worthy president.

On motion, the selection of officers for the ensuing year was declared in order, and President J. H. Connell was re-elected president, and Mr. B. C. Pittuck secretary. This action was done with hastiness which showed the highly favorable estimate placed upon the work of these gentlemen heretofore in these important and laborious places.

At the night session, among the most important business transacted was a motion that a committee of five with President Connell as chairman, be appointed, as provided in the resolution passed last night relating to the introduction of agricultural science into the curriculum of Texas public schools. Resolution adopted.

Mr. Pickett was called to the chair temporarily, and the following committee appointed: John D. Fields, Don O. Lazer, E. W. Kirkpatrick, Oswald Wilson, in addition to President Connell.

With the adjournment of the night session the Fourth annual Farmers' Congress passed into history, and no prouder distinction need be desired by a citizen of Texas than to have been one of the earnest, intelligent, wide awake men who made the Farmers' Congress the great factor that it is in the material welfare of the great state of Texas.

MAKES A NEW MOVE.

Tube Works Employees to Denounce the Union and Sign Contracts.

Pittsburg, July 27.—The National Tube Works company at McKeesport has made an unexpected move intended to checkmate the Amalgamated association. Their skilled workmen have been asked to sign individual contracts to practically repudiate any union labor and they have been given but a short time to think the matter over. It is said that if they should not sign the contracts they will find their positions vacant.

Thursday evening the 600 welders of the mills were paid off and taken into the office of the general superintendent where they were presented with individual contracts to be signed for at least a year. Some demurred while others signed the contracts. This movement, fighting fire with fire, carried consternation into the ranks of the strikers. The welders are highly skilled workmen and with their co-operation the big plant might be closed down. With them in line the plant will probably keep on running.

Definite announcement that the officials of the American Sheet Steel company would start the W. Dewees wood mill in McKeesport as a non-union plant on Monday has reached the headquarters of the Amalgamated association. The movement will not be permitted to be made without a decided attempt to check it. While the rank and file of the strikers are not acquainted with the plans of the campaign they now believe that the important developments will change the aspect of affairs considerably.

Capitol Syndicate Trying to Settle

Fort Worth, Tex., July 27.—A conference is in progress here between representatives of contending factions in Capitol syndicate now controlled by the Farwell interests of Chicago. Manager A. G. Boyce, who has been in control of the property for the past 14 years, states that proceedings were begun by holders of 300 shares out of 400,000. The ranch property consisted of 3,250,000 acres, and 120,000 cattle, and there was branded last year 36,000 calves. The protest against the appointment of a receiver will state the property did not pay expenses for the first seven years. Farwell paid running expenses out of his own pocket, amounting to \$450,000 annually. Recently 700,000 acres were sold at \$2 per acre also 19,000 cattle, total consideration for the land and cattle being \$1,750,000.

Wife Beater Punished.

Wheaton, Ill., July 27.—Enraged because of his continued abuse of his wife 800 men of west Chicago, a little village 30 miles west of Chicago, seized Valentine Miller and covered his naked body with two coats of tar and feathers. A few minutes later a second mob caught him and tied a rope about his neck, and threatened to lynch him. Miller finally escaped. A warrant was issued for Miller's arrest but he was not captured.

General Wood Leaves Havana.

Havana, July 27.—General Wood was taken on the steamer Morro Castle today. He expressed himself as being quite well and wanted to walk aboard the vessel, but the doctors insisted upon his being carried on board on a portable cot. Deep sympathy for General Wood was shown by Cubans of all classes upon his departure. The Morro Castle is due at New York next Tuesday.

Almost a Blockade.

Kansas City, July 27.—The Chicago and Alton has been for several days unable to secure sufficient water for its trains, and as a result has allowed the freight to accumulate in its yards here until it has reaching the proportion of a blockade. The road has refused grain shipments on this account. Several times it has been difficult to get water for its passenger engine.

Killed by a Woman.

Shelbyville, Ind., July 27.—William Gray, commonly known as "Billy" Gray, was shot and instantly killed by Mrs. Mark Frieze, at the Red Mills, 10 miles northwest of this city. The only cause known for the shooting was that Gray had been keeping company with Mrs. Frieze's daughter and were expected to marry, when Gray married another woman.

Cotton Benefited by Rains.

Dallas, July 27.—The drought has been broken by good rains in approximately 30 per cent of the cotton growing districts. These rains have fallen regularly for the last four days over the extreme northern and southern rims of the cotton belt, 80 per cent of the cotton lands in the central district received only local and scattering showers.

Acquittal Expected.

Manila, July 27.—At the trial of Lieutenant Preston Brown of the Second infantry on a charge of murdering a native near Binangonan, it was proved the native was killed while trying to escape and the acquittal of Lieutenant Brown is expected.

The Maine Successfully Launched.

Philadelphia, July 27.—The battleship Maine was successfully launched at Cramp Ship yards here today. An immense crowd witnessed the launching. No hitch occurred.

Eleven Men Injured.

Cincinnati, July 27.—Eleven men injured here perhaps fatally in a gas explosion here in the new waterworks tunnel now in course of construction at a depth of 140 feet.

Next President of Chile.

Valparaiso, July 27.—The Chilean electoral college has cast its vote for Jeronimo Riesco, for the next president of the republic.

Encampment a Success.

Austin, July 27.—The encampment here was a grand success and valuable instruction given the state militia. The sham battle was a splendid spectacle and witnessed by the largest crowd ever gathered here, except possibly the visit of President McKinley.

Houston Votes for Bonds.

Houston, July 27.—The result of the election here Thursday to issue bonds for paving streets in the sum of \$240,000, for sewerage \$60,000 and for school buildings \$50,000 was not a surprise, as there seems to be a strong disposition to spend money and make improvements in this city.

Killed by Lightning.

Leesville, Tex., July 27.—John Bratton of this place received a message from Cotulla stating that his grandson, Dudley Bratton, was killed near there by lightning.

El Paso and Southwestern.

Santa Fe, July 27.—The El Paso and Southwestern railway, with a capital of \$7,000,000 to build the connecting links in Phelps, Dodge & Co.'s railway line in Arizona and New Mexico from Nacozari, Mex., to El Paso, Tex., by way of Bisbee, Clifton and Deming, with 350 miles of road, was incorporated here. Also the subsidiary companies of the Southwestern railway of Arizona, whose main line will be 53 miles in length and the Southwestern railway of Arizona, Bisbee branch, 22 miles long.

Sentenced Banker Pardoned.

Washington, July 27.—The president has granted a pardon to John F. Johnson, former president of the First National bank at Logansport, Ind., who was convicted of misappropriating the funds of the bank and other violations of the national bank act. He was sentenced to 10 years in the penitentiary and has already served five years.

New Trotting Record.

Cleveland, July 27.—Amid the cheers of nearly 10,000 people Crescents, the world's champion trotting stallion, again demonstrated that he is the peer of all trotters by trotting a mile here in 2:02 1/2.

Mexican Stabs a Chinaman.

San Antonio, July 27.—Lok Sing, a Chinaman, was stabbed several times and dangerously wounded in a fight here. E. S. Patecha, a Mexican employed by Smg, was arrested and jailed.

Imports and Exports.

Washington, July 27.—The total imports into the United States for the year ended June 30, 1901, were \$822,674,016 total exports \$1,487,755,557; exports of domestic products, \$1,870,453,809.

Society

[A column devoted to society events of the week will appear in each Sunday's Morning Eagle. Notes and all reports of society events are requested. No manuscripts are solicited for publication verbatim, however, but it is requested that matter be submitted, to be worked up by the society editor.]

A crowd of about twenty young people, chaperoned by Mr. and Mrs. J. N. Lawrence, spent the past week at Sulphur Springs, where they had the best time in their lives fishing, hunting and enjoying camp life. The party returned yesterday.

Mrs. J. N. Lawrence and Sadie Mawhinney entertained their little friends to the number of fifty or more at a lawn party Thursday night at the residence of Mr. and Mrs. J. H. Mawhinney. Games and refreshments made the evening a delight to all.

Last Wednesday evening Master Aubrey Rhodes, who left the following morning with a fishing and hunting party for Sulphur, I. T., entertained a merry company of his young friends, eight or ten couples, at the home of his parents, Col. and Mrs. A. M. Rhodes in the northern part of the city, from 8 to 11 o'clock. Music, dancing, games and refreshments made the evening pass pleasantly for all.

Mr. E. B. Lomax is never tired of planning nice times for the children and nobody can win their hearts more quickly and completely than he. Yesterday he took a jolly crowd of boys and girls out into the country for a picnic. The big express wagon was hitched up and filled full and a number of the boys and girls rode ponies. A fine dinner and a good time for everybody was the result. The picnic was given in honor of Misses Cecile Mistrot of Galveston, Judy McConico, Hattie Ray Harbers and Irene Harman.

The lawn at the pretty new home of Mr. and Mrs. Cliff A. Adams was the scene of merrymaking by thirty couples of the younger set Tuesday evening. The occasion was a shirt waist watermelon party given by Misses Nonie Adams and Lilla Graham McInnis. The boys and girls all wore shirt waists. Watermelons and punch were the refreshments. The latter was daintily dispensed by Misses Alberta Adams and Malcolm McInnis. A feature of the amusement was a watch contest in which the prizes went to Miss Nellie Robinson of Dallas and Miss Adelle Read.

With the ever changing seasons of the past few years sly Cupid has led to Hymen's altar many couples of Bryan's young people, so that the social circle, while none the less charming in personnel, is not as large as formerly. Some of the young bachelors, therefore, who go upon the principle that "the more the merrier," took the initiative last Thursday evening and invited a number of the girls of the younger set to go hay riding. The invitation was accepted and the party, chaperoned by Mr. and Mrs. T. K. Lawrence went out to Still Creek, had a watermelon feast on the wagon bridge, and no end of fun. Messrs. Ed Saunders, George Smith and Johnnie Wilson were responsible for the good time the crowd had.

Boys and girls will generally agree that the funniest party in the world is the tacky party. There is absolutely no limit to the amusement afforded by the variety of costumes effected and the way they look on friends we are accustomed to see neatly dressed. In order to give their young friends the best kind of a time possible at a party for boys and girls, Miss Gussie and Master Frank Buchanan gave a tacky party Friday afternoon and the home of their parents, Mr. and Mrs. A. J. Buchanan, was the scene of the gayest and jolliest crowd of about sixty we have seen in a long time. Charlie Adams got the prize for the tackiest boy and Miss Malcolm McInnis for the tackiest girl. The prize for the tackiest couple went to Derden Chance and Miss Louise Harris. In advertising guessing contest prizes were awarded to Miss Lucile DeMarret and Mat Bethel, Miss Ray Conway and Rudolph Myers. Cake, lemonade and watermelons were the refreshments.

Place and Furniture for Sale.

Desiring to break up housekeeping, Mrs. G. G. Nass offers for sale her place one block north of courthouse; also a lot of very handsome furniture including a piano, three bed room sets, parlor set, dining room set, tables, easels, hall tree, chairs, sideboard, sewing machine, cooking stove, etc. The place is desirably located for rent house and the furniture is clean, new, without scratches and unusually handsome. Prices very low. Call and see Mrs. Nass at residence.

Electric Belts.

I wish to notify the people of Brazos and surrounding counties that I am manufacturing an electric belt that is a positive cure for nearly all the ills to which man is subject. They are no humbug, and are sold under a positive guarantee. I have the testimonials of reliable persons whom I have cured. All who wish one can get same from T. A. Searcy at the Bryan Grocery Co's. store. Price \$1.00. Chas. Claydon.

To Cure Dyspepsia and Indigestion. Sour Stomach or Heartburn, take Rex Dyspepsia Tablets. All druggists are authorized to refund money if they fail to cure. Price 50 cents. M. H. James, the leading druggist, Bryan, Texas.

Mrs. Knox Howard returned from Navasota yesterday.

THE CONDITION OF THE PATIENT

Is often such that the slightest variation from what the doctor prescribes may have serious results. Prescriptions compounded here are absolutely correct. The order is followed exactly. We add nothing, hold out nothing and substitute nothing. The purest drugs and medicines are used. Everything is fresh and efficient.

M. H. JAMES, THE LEADING DRUGGIST.

Dying of Heat!

Hundres are dying of heat in the northern cities where the hot weather records have been broken—We are all thankful it's not that bad here but it is bad enough—too bad unless you have

PLENTY OF PURE ICE.

It is good in sickness and in health; it will preserve your food and save your doctor's bill. It is the cheapest luxury in the world and one you cannot do without. Remember our ice is made from pure soft water, condensed, skimmed, reboiled, filtered and frozen. Delivered at your refrigerator.

B. S. READ, Druggist.

SAMPSON INTERVIEWED.

He Talks to a Reporter About the Santiago Blockade.

New York, July 27.—The Herald correspondent at Boston has obtained an authorized interview with Rear Admiral Sampson upon the points in controversy as a result of the Santiago campaign. The questions and answers which follow were transcribed and the typewriter copy of the interview submitted to the admiral for correction.

"Admiral you have been severely criticised of late for starting to Siboney on the morning of the Santiago battle. What was your reason for so doing," was asked.

"I went to Siboney upon the urgent request of Major General Wood who had demanded a council of war. He being ill at the time, and, moreover, being senior to me, it was incumbent upon me to go to him. I chose the time of day when it seemed least likely that Cervera's fleet would come out of the harbor. This opinion is substantiated by the fact that Cervera has been severely criticised for choosing this opportune time rather than waiting until just before dark when he would have an opportunity to scatter his ships with a good chance of escaping in the darkness."

"You have also been criticised for weakling your fleet by your sending the battleship Massachusetts to Guantanamo for coal. Your critics say you should be court-martialed for not keeping your entire force on the blockade line and coaling from colliers."

"This weakening of the line was an unavoidable feature of the blockade. Although we did do considerable coaling from the colliers on the blockade line, we found it impossible to keep sufficient supply on board all the vessels by this method. It must be remembered that the vessels were constantly under way and had to keep steam in enough of their boilers to be ready to move at good speed on immediate notice. This involved the expending of coal faster than it could be put on board, and we were therefore obliged to send a vessel each morning to Guantanamo to coal, the vessel returning to her blockade station at nightfall. In this way you can see that the whole force was on hand throughout every night—the time when all supposed it was most likely to be needed."

"Furthermore, while it would, of course, have been best had it been possible to have had every ship in her station at all times, there never was a time from June 1 to July 3 when our force on the blockade was not far superior to the Spanish force inside. So, the absence of one ship, as events afterward proved, left us with sufficient force to make successful the outcome of the engagement."

"The message, which you sent to the navy department immediately after the victory and which read: 'The fleet under my command offers the nation as a Fourth of July present,' etc. Admiral, as you know, has caused much criticism. Was that written by you or at your dictation?"

Admiral Sampson said the message was written by one of his staff, but said he approved the message before it was sent.

When asked if the blockade established by Schley was not sufficient he said he made a change when he took charge, believing such a change would be more effective.

"One other thing, admiral, Rear Admiral Schley in a recent interview claimed that the Brooklyn inflicted 58 per cent of the damage done the Spanish ships and received 54 per cent of the injuries sustained by the blockading squadron."

"I do not wish to criticise Schley or any of his statements. I do not want to be brought into any discussion in which he is involved. His statements may be perfectly true. The exact figures are unimportant. I will repeat now what I said before, that the Brooklyn did excellent work in the battle. To the best of my recollection I never criticised the Brooklyn except for her initial movement, a movement which, in my opinion, was an error of judgment. I do not wish to say anything more on that subject."

Paymaster Robbed.

Manila, July 27.—During the payment of troops at Santa Cruz Friday \$30,000 was stolen from the guardhouse. The robbery of the paymaster's safe is supposed to have been the work of soldiers. It appears that Major Canby, who was paying the troops in Laguna district, left the safe in the guardhouse and that while it was there the thieves succeeded in abstracting the contents. Gen. Chaffee has sent the chief of Manila detectives to Santa Cruz to investigate the affair.

Supposed Treasure Found.

Caldwell, Tex., July 27.—Some few days ago some unknown parties dug a hole on the plantation of Tom Bird, only a few miles from here. On the side of the excavation was found an old pot, which gave evidence of having been filled with coin. On some post-oaks near by were some old Spanish pointers, and on a rock near the place was engraved a cross and some other symbols.

British Forced to Retreat.

London, July 27.—Kitchener reports that a detachment of Steiner's Horse occupying Bremersdorf was forced to evacuate on July 24 by a superior force of Boers. The detachment fought all the way to Lombodo, a distance of 16 miles, losing about 10 killed or wounded and a few missing.

PRECEPT IN SCHLEY CASE

Takes in All Acts of the Admiral During the Spanish War.

Washington, July 27.—The precept to the Schley court of inquiry has been given to the public. It is addressed to Admiral Dewey, as president of the court, instructing him concerning the matters to be investigated. While it directs that the "entire matter" of Admiral Schley's conduct during the operations in West Indian waters shall be investigated, it also selects certain acts of Schley concerning the facts and propriety of which it calls for particular investigation. These points cover briefly Admiral Schley's alleged delay with the flying squadron at Cienfuegos; the slowness of his progress toward Santiago after leaving Cienfuegos; the retrograde movement toward Key West; the effectiveness of the bombardment of the Spanish fleet and the ranges used in the reconnaissance of May 31; the state of the coal supply on various ships when he telegraphed the department that he would return to Key West; the loop of the Brooklyn at Santiago and the accuracy of his reports and matters relating to the controversy between him and Commander Hodgson, over the alleged colloquy which is said to have taken place aboard the Brooklyn, when the loop was made during the naval engagement off Santiago.

With the exception of the last two counts the others practically sum up the criticisms of Admiral Schley's conduct made by Secretary Long to the senate, which the secretary characterized as Schley's "reprehensible conduct." One of the important points in the precept is the direction to the court to report in its conclusions "all the pertinent facts which it may deem to be established together with its opinion and recommendations in the premises."

The court will probably sit for several months, more than likely until after congress convenes in December.

Judge Lemly has not yet decided who the witnesses before the court shall be. They may be taken from the navy, from the army or from civil life, for undoubtedly some of the newspaper correspondents will be called in the case. It is even probable in view of the recent interview of Captain Eula of the Spanish navy, that he and Admiral Cervera himself will be called if Admiral Schley desires it.

Gambling House Robbed.

Tucson, A. T., July 27.—A gambling house at Naco, known as the "Big Adobe," was held up by a desperado. Dave Crockett, owner of the place, had just placed money in a bag amounting to several thousand dollars, when a desperado appeared and threw down a six-shooter. "I'll take care of those," was all he said. As he backed toward the door some one in the rear of the gambling hall fired two shots at him. The desperado returned the fire, but no one was hurt. He mounted his horse and rode into the mountains.

The Biggest Baby.

Colorado Springs, Colo., July 27.—Mr. and Mrs. Frank Leaf, of Colorado Springs, are the proud parents of possibly the largest baby boy ever born in America. His net weight is 17 pounds, height 24 inches and chest measurement 15 3/4 inches. Dr. D. H. Rice says there is nothing abnormal about him except his size, which exceeds that of any child born in Colorado, and possibly in America.

Farmers Seeking Work.

LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

MAKE no mistake!
See that my head
is on every package of

LION COFFEE

you buy. It guarantees
its purity. No coffee is
LION COFFEE

unless it is in a 1 pound
sealed packet with the
head of a lion on the
front. Then you get
pure coffee—the highest
grade for the money.

Watch our next advertisement.

Why has
LION COFFEE

now become the leader
of all package coffees?
And why is it used in
millions of homes?

Because it does not
sail under false colors.
It is an absolutely clean,
pure coffee. No glazing,
no coating with egg
mixtures or chemicals
in order to hide imperfections.

Just try a package of
LION COFFEE

and you will understand the reason of its popularity.

In every package of LION COFFEE you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).

WOOLSON SPICE CO., TOLEDO, OHIO.
